November 2020 When you want to improve your workflow, you need to have the right computer. And one of the most appealing computers is macbooks. These sleek transportable PCs let you work anywhere, anytime, providing many features to your users. But sometimes it's not enough. In many cases, you are looking for more. While you might go for some productivity apps, there are actually many MacBook add-ons available that will make your life easier in many ways. This accessory lets you charge your MacBook faster, store more data, or keep it safe and protected while traveling. In addition, there is a wide range of accessories to choose from as many companies have jumped on the bandwagon of deliveries to MacBook users. Below are some of the biggest macbook accessories that will benefit your pc. What makes a large MacBook accessory? Before we got to the list, we wanted to go over the criteria for what makes a great macbook accessory. The items we selected from this list will have the following criteria: Reasonably priced – The accessory itself should not break the bank compared to macbook's large initial investment. Usability – All of these add-ons are practical in different situations, but they also have additional features that are useful in several situations outside of their obvious functions. Compact - In most cases, the workflow is also about space. As such, anything that is too bulky doesn't help much. These accessories are either large for purpose - for storing other items - or they are nice and compact so they won't fill in your way. USB drive to store files quickly without access to the cloudSave always access to the cloud at any time, sometimes availability can be cumbersome or take some time. Instead of trying to access files this way, getting a USB flash drive can save you a lot of time. Especially if your work involves providing presentations. SanDisk Ultra Dual Drive is great because it offers USB-C and USB-A connectors that allow you to connect to virtually any device and transfer files and more between PCs. Also, USB drives boast several hundred gigabytes these days, making it a solid storage device. Buy SanDisk Ultra Dual Drive here.Compact charger that does more than chargeYemerious default charger that comes with your macbook is a good choice for a charger, but these days chargers can offer a lot more. This can help you speed up your workflow because you can charge other devices or use the charger for other purposes outside of charging. In the case of an Anker PowerPort charger, it is more compact than the default charger. It also offers an additional USB-C connector that allows you to quickly charge another gadget with it. Buy your Anker PowerPort charger here. Port adapter for those with multiple devicesA one hard restriction with a macbook is that it has only two USB-C ports. This is manageable for people with fewer gadgets, but you're the type that has several, it can interrupt your workflow if you need a specific device and can't charge or access it. In this case, the Satechi port adapter may help. It offers multiple USB-C ports that allow you to use multiple devices. It can also help in organizing cords that we know can disrupt work. If USB-C ports aren't enough, they also come with an SD card reader and an Ethernet cable port. Buy Satechi Multi-Port Adapter here. The USB cable, which is not as distracting or cumbersome, uses the USB-C cable that comes with macbooks, is small and used to hang on to an external monitor. By adding more length to them, you can have better cable management. One option that we found to be ideal was the Nomad Kevlar cable, which offers enough length to do what you want while giving you more space to work with. Buy a Nomad Kevlar USB-C cable here. Cleaning the screen of your laptop to see what you are doingDust, particles and stains can be expected on laptop screens after a while. While you can bypass these, sometimes they can obscure your visions at times. The same applies to all devices these days. The only problem with many solutions on the market is that they can damage screens. Fortunately, we found a screen cleaning solution that does not damage the screen. The ScreenDr Professional screen cleaning kit comes with a screen-safe spray and a microfiber antimicrobial cloth to provide you with as much spray as possible. Buy ScreenDr Professional Screen Cleaning Kit here. Card reader, which speeds up the time of transfer of photosSo if you are looking for a separate card reader for your work, it is necessary to get a device designed for transferring and reading photos. One of the best macbook accessories in this category we found was a Vanja card reader. It is able to read SD and MicroSD cards while transmitting images to your computer with ease thanks to the usb-c and USB 2.0 port options. It's also small so it's easy to wear and it's cheap to buy making it a great choice to pick up if you're dealing with lots of pictures. Buy Vanja Card Reader here. Protective sleeves to protect your laptop from harmFor those traveling the last thing you want is your laptop to be damaged for any reason. While you're unlikely to drop it as often as your phone, having a sleeve for the laptop to be in can save you time. One sleeve that we found interesting was native union sleeves. They are made of tear-resistant material with original leather accents. Its interior is soft and prevents scratches from the laptop. It also offers a pocket space where you can easily store cables and other macbook accessories. Buy Native Union laptop sleeve here. Car charger for charging on the goFor the person who always drives around, the car charger is always a useful tool you can have when you are on the road. The one from Anker is especially useful in many ways. Not only can it charge your MacBook, but it also has an additional port charge your phone if necessary. It's not the fastest charger out there compared to the MacBook Pro adapter, but it's the highest on the market with an output power of 30 watts. By comparison, the second fastest charging connector offers 18 watts of power. In addition, the charger has an illuminated LED ring so you can see it and connectors late at night. It also has a function that ensures that the device does not experience overheating or overheating from the charger itself. Buy an Anker PowerDrive car charger here. USB-C to USB-A adapter grants access to older modelsSuch as long as your older macbook still works, but it has the files you want that you didn't base it on, it makes it easier to access them. It also allows access to devices that only have USB-A slots. This can save you a lot of time if you move between older and newer devices. Buy thunderbolt adapter here. Hardshell for Added Protection CaseAlmushion is good for travel, but when you use it, there can be a nice extra layer of protection. In addition, this hardshell case can also serve as additional protection against scratches and bumps. Buy Incase Textured Hardshell Case here. Alternative case for those who have tighter budgets but want protectionSo if you are looking for a suitable laptop case, but do not want to spend too much, amazonbasics brands are a good alternative. Their sleeves are elegant and still offer good scratch protection. It also has several pockets for small essentials. Buy AmazonBasics laptop sleeve here. Hub that holds several ports at onceYou have already mentioned the port before it is a huge time saver due to the fact that it has different ports for different devices. This is a great alternative because even though it doesn't offer as many USB-C ports, it offers more variety. Paired with a design that's the same color as the MacBook Air, it features two USB-C connectors, two USB 3.0 ports, an HDMI port, and SD and microSD card readers. Buy Satechi Type C Pro Hub here. Headphones for solving fewer headphone cablesCords are a common problem in increasing productivity at the table, and one way to mitigate them is to go wirelessly. If you're thinking about it, one option to consider is the Soundcore headphones. These are cheaper than Apple's traditional AirPods, which can save you money. In addition, they provide great sound and are connected via Bluetooth. The beauty of these headphones is that they can also cancel out the sound, even if they are so compact. They also offer touch controls that let you pause, play, skip music, and answer calls. Buy Soundcore wireless headphones here. Table stand to save space for desktop space is another key part of productivity, as things can get in the way and hinder your work. In cases where you don't currently need your laptop, it can be helpful to have a booth where you can put it away. In these situations, we recommend the Twelve Southern Arc Books. This neat MacBook approach can save a ton of space because it requires you to laptop so that it can be inserted into the rack. It also keeps it elevated from the surface, which can protect against spillage twelve Southern BookArc table stand here. Comfortable and easy-to-use mouse for faster working speedThe last macbook accessory we'll talk about is the right mouse. Logitech offers fantastic mice and their Logitech MX Master 3 is one of the largest wireless mice. It's an ergonomic design, customizable buttons, and the insanely precise movement is fantastic. It also comes with a scroll wheel for precise scrolling. The battery can last for months between charging and, like all Logitech devices, comes with a USB-C connector for charging. Buy logitech mx master 3 wireless mouse here. Bottom lineThere are many macbook accessories out there to improve your workflow. Taking the time to research and invest in some of the best though will save you a lot of time, money and energy in the long run. At the same time, all these add-ons can help you with specific needs for what you do. Best photo credit: Viktor Ritsvall via unsplash.com unsplash.com
